Last week, there were some flood warnings in the news because there were really heavy rains and strong winds in my area. I remember I was alone with my dog at home. But I wasn't afraid because my neighbourhood is on a hill and water runs smoothly when it rains. Well, it was different this time. It was early in the afternoon; the sky was very dark, with thunder and lightning! It started to rain a lot after some time and there were some hard noises in the street. Many of them were from car alarms. But that was just the beginning of a nightmare! My dog Bella was terrified. She was barking in the living room and I decided to go out to have a look. I was terribly shocked. There was water all around our house! Fortunately, there were many firefighters rescuing people in my neighbourhood and my dog and I were saved.

Some hours later, I was with my parents in a shelter and we were much relieved. After some days, we were very happy to return home. I will never forget this horrible experience.
