The Old Farmer's Almanac

How did people predict the weather in the past?

A long time ago, in the 1700s, a young scientist named Robert B. Thomas studied the sun, the moon and the stars in relation to the weather and the seasons. In 1792, he produced a small book called The Farmer's Almanac to predict the weather for each year. It told farmers when to grow different plants and it gave fishermen information about the sea.

It also included recipes, articles and jokes. Farmers kept the book in their outhouse (a bathroom that is outside) to read and use old pages for toilet paper! Today, people continue to buy and use The Farmer's Almanac to read the weather predictions for each season and get advice about gardening. In addition to the paper version, readers can find the book online at almanac.com.

The Frog and the Toad

A toad and a frog had a disagreement. The toad thought he was pretty and the frog was ugly. The frog thought she was beautiful and the toad was ugly. Then a girl walked by. She saw them and screamed 'Aagh!' She was afraid of the toad and the frog. So they ran away.

The Lion and the Cows

Four cows lived in a field. They were good friends. One day, a lion saw them. He attacked, but the cows put their tails together and formed a circle. So the lion decided to wait. Then the cows fought and got angry. Each of them went to a separate corner of the field. The lion attacked them, one by one, and soon ate all the cows.

Dear Diary,

It was a difficult journey. I left home in June. First, I travelled to a small town to visit the king. The king sent me on a dangerous mission with his best knights. We rode horses through the mountains. Next, we bought some food and armour. Then we took a ship to England. Finally, we fought in a war. We didn't fight for a long time. We won quickly! Now our country is safe!
